Picked up my new Blazer ZR2 on friday. I'm switching from a mustang 5.0. At first I missed what the mustang can do ... now I love the Blazer. Totally different ride , High & big. Does anyone have any comments / stories on the Blazer ZR2.

I have a 2000 Blazer ZR2 on order (4 weeks now) and also have a 95 Mustang 5.0 but I won't part with it! I still don't have a delivery date - if you ordered yours how long was the wait? This will depend on the dealer. I waited 4 months for my 99 ZR2 Blazer. I have been very pleased with this truck and, after a couple of modifications, it runs very strong. By the way, my other car is a 92 300ZX plus a 96 Harley FatBoy and a Wave Runner. Needless to say I am out of space in the garage. ku...@aol.com
